

HUSKY 120 PRO TELESCOPIC

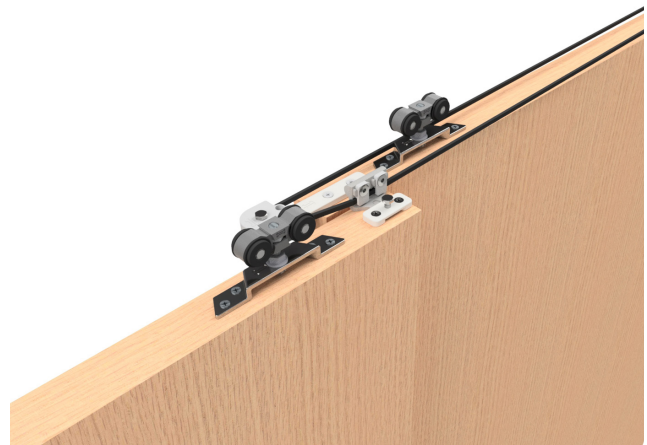

Perfect for wider openings, the Husky 120 Pro Telescopic systems caters for multiple wooden doors weighing up to 120KG. The system has been designed so doors become neatly stacked sliding partitions and with no guide channel there is a clear walkway between rooms. By moving the lead door, all other doors travel simultaneously linked together via a toothed belt. The system has low levels of friction and noise and is ideal for room partitions or dividers.

Standard Husky 120 Pro Telescopic Kit Includes:

- Hangers
- Easy Access Apron Plate
- Clip Stop
- Long Arm
- Short Arm
- Belt Retain Block (door mounted)
- Belt Joint Bracket (wall mounted)
- Second Door Bracket (3 door kits only)
- Toothed Belt
- Datum Block
- Fixed Floor Guide
- Adjustable Floor Guide
- Adjustable Floor Guide Bracket

You will also need:

- Track
- Flush pulls and/ or handles

Your Standard kit can be enhanced with:

- Fascia F140, anodised aluminium (for face fixed)
