

IMPERIAL PATIO KIT HENDERSON

200kg Wood Interior Exterior

For bottom rolling sliding doors weighing up to 200kg each

Overview

Imperial Patio Kit is ideal for bottom rolling patio doors and sliding room partitions in residential and commercial applications. The bottom rolling system allows doors to be installed in applications where there is limited structural support and therefore the weight of the door must be taken by the floor.

Available in locking and non locking variants, our Imperial Patio Kit is able to suit a wide range of applications. The locking version comes complete with a high security 6 hook lock and keep plate.

Features and Benefits

- Suited to applications where the supporting structure or lintel is insufficient
- Available in locking and non locking variants
- For double door specifications, two kits can be purchased
- Suitable for internal and external applications
- Ideal for sliding patio doors
- Easy to install
